STATEMENT REGARDING LACK OF SIGNATION DIVISION APPLICANT/INVENTOR UNDER PCT RULE 4.15(b)

Sir:

The U.S. Receiving Office is hereby petitioned to accept the above-identified application without the signatures of applicant/inventors Karl Warfel and Kevin Whitley.

These applicant/inventors were one-time employees of a company that is affiliated with the present assignee and signed employment agreements wherein they agreed to execute documents necessary to obtain a patent for any intellectual property anywhere in the world. Although unsuccessful, the employer has made good faith attempts to obtain the executed Powers of Attorney as well as the Combined Declaration and Assignment documents that would be due when the international application is entered into the national phase of prosecution.

Attached for review by the Receiving Office are copies of the following documents:

- 1. Memorandum to applicant/inventors Karl Warfel and Kevin Whitley forwarding Power of Attorney documents for execution and return via certified mail;
- 2. Copies of the return receipt for above-identified documents signed by Messrs. Warfel and Whitley;
- 3. Copies of the employment agreements; and

Action: Please execute the PCT Powers of Attorney/Assignment and

return to us no later than May 17, 1999

On March 24, 1999, we filed a PCT application, designating all eligible PCT countries, including the designation of the U.S. as a continuation-in-part application. The international application was filed without all the executed documents.

Please find enclosed a PCT Powers of Attorney and Assignment for your execution. Each inventor has been given the same material. Please execute both forms, ensuring that the Assignment is executed in the presence of a notary.

We appreciate your assistance in this request.
